SUBJECT: Immunalysis Corporation Drug Testing Kits for THC

Under a cure notification, Immunalysis Corporation initiated actions to correct a problem regarding THC reagent instability identified at the close of calendar year 1994. Based upon information provided from DoD testing facilities and a civilian contract facility, Immunalysis Corporation has remedied the reagent instability problem. Therefore, the laboratories are hereby directed to resume procurement of Immunalysis Corporation reagents under contract number N62645-94-D-0017.

Request that Immunalysis Corporation THC reagent procurement, under the above contract, begin with the next reagent procurement cycle. For any additional information on this issue, I may be contacted at (703) 693-1917 or DSN 223-10917 for any additional information.
